

BROMAKIL

HOW TO USE: DO NOT exceed 3m between bait stations for mice, or 9 m for rats. DO NOT place baits in open. DO NOT leave baits accessible to children, domestic animals and non-target wildlife.

SITUATION	PEST	RATE	HOW TO APPLY
In and around Domestic buildings and commercial premises.	Rats	2 or more 35 gram blocks per bait station	Baits are joined in pairs and should be separated before use. BAITING STRATEGY- Eliminate as far as practicable, all alternative food sources. Bait infested area. Place baits under cover. Inspect baits daily. Replace eaten baits. If eaten quickly increase number of baits. Continue observation and replenishment until no more baits are taken. Baiting for at least 2 weeks is necessary to reduce rat/mouse numbers.
	Mice	2 or more 35 gram blocks per infested area	

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED.

The use of this product for the control of protected native rodents requires permission from wildlife authorities.

GENERAL INSTRUCTIONS: Bromakil blocks are particularly useful in areas where baits deteriorate rapidly, such as damp areas, sub-floors, roof voids, outhouses. The hole in the centre of the block will allow pinning or tying off the ground in very moist areas, or where rodents are climbing. Place edible items which cannot be moved in rodent-proof containers. Sweep up all edible waste.

CAUTION: Do not allow bait to contaminate foodstuffs or food intended for human or animal consumption. DO NOT apply bait to crops. Place baits in locations which are inaccessible to other animals and birds. This product is hazardous to pigs, cats, dogs, native wildlife and poultry.

DO NOT allow chemical containers or product to get into drains, sewers, streams or ponds. The product is restricted to use in and around buildings (within 2 metres) or enclosed spaces.

STORAGE AND DISPOSAL: Store in the closed, original container in a cool, dry, place out of reach of children. Do not store in direct sunlight. Dispose of empty container by wrapping in paper, placing in plastic bag and putting in garbage. Dispose of contaminated containers, bait and carcasses safely.

SAFETY DIRECTIONS: Poisonous if absorbed by skin contact or swallowed. Repeated minor exposure may have a cumulative poisoning effect. Avoid contact with skin. When preparing product for use wear elbow-length PVC gloves. If on skin and after each baiting, wash thoroughly with soap and water. After each day's use wash gloves.

FIRST AID: If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 13 1126. Vitamin K1 (PHYTOMENADIONE) is antidotal.
