

POD SEALER

Mesh™

Oilseed Rape - Peas - Beans - Any podded crop

Reducing incidence of pod shattering.

DEDICATED TO ENHANCE
CROP PROTECTION PRODUCT PERFORMANCE

DE SANGOSSE 

POD SEALER

Mesh™

Oilseed Rape, Peas, Beans - any podded crop

Mesh™

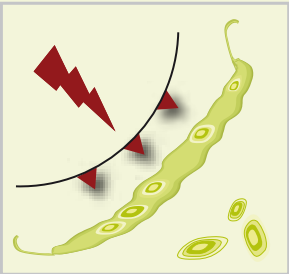

POD SEALER FOR:

DESSICANTS
(such as Glyphosate and diquat)

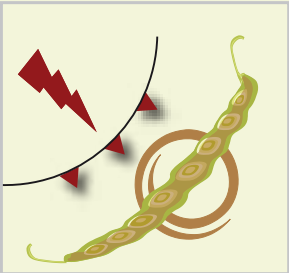

RATE OF USE

1 L/Ha to 1.5 L/Ha

MESH™ ACTION:

Without MESH™: seed losses

MESH™ tacks the pod's top seam together by depositing a covering latex film, **protecting the oilseeds inside and strengthening the crop wall.**

MESH™: A UNIQUE POLYMER BLEND

which reduces the quantity of seed shed from seed pods shattering before and during harvest.

TACKS THE POD'S TOP SEAM

Oilseeds inside protected

+

ENSURES CROP POTENTIAL

Strengthened crop wall

+

GIVES TIME FOR HARVEST

Prevented seed losses
