# GENERATION<sup>®</sup>

## BLUE SOFT BAIT

**THINK SOFT.  
STRIKE HARD!**

## KEY FEATURES:

- Based on **DIFETHIALONE**, a new active in Australian Agricultural Market, combined with the most attractive formulation
- 10g ready-to-use **SOFT BAIT**
  - More attractive than competing food sources.
  - Do not melt in hot conditions
- Single-feed with rapid mode of action.
  - 2-3g to kill a rat (average daily diet = 20g/day)
  - 0.3-0.4g to kill a mouse (average daily diet = 3g/day)
  - Can be as quick as a couple of days
- Pack Sizes available: 480g, 1.5kg & 5.5kg

Soft Baits contain Bitrex, a bittering agent that reduces the risk of consumption by non-target. Vit K1 is an effective antidote in case of non-target poisoning
